VALUATION

VALUATION

Our valuations

Ogden of Harrogate provides comprehensive valuations for

- Insurance
- Probate
- Family Division
- Sale Between Parties
- Capital Gains Tax
- Security of Loan

It is recommended that you have your jewellery re-valued for insurance every 3 years to accommodate the changing precious metal and stone markets.

The best professional expertise

Ogden of Harrogate's expert valuers carefully appraise your jewellery, watches and silver. The combination of years of experience, expert qualifications and the latest testing equipment mean that an Ogden valuation is one that is trusted throughout the industry.

Comprehensive report with photographs

Digital photographs are taken from at least two angles and included in your valuation document with a full and accurate description. Any distinguishing features will also be noted. In the unfortunate event of theft, the photographic details as well as the description can help the police recover your irreplaceable possessions or provide you and your insurance company with all the information you need to replace them swiftly.

Your property never leaves the premises

In contrast to many jewellers that source out their valuations, all valuations are carried out at our James Street premises, giving you added peace of mind.

Complimentary cleaning and checking

Upon arrival, all items left for valuation go to Ogden of Harrogate's famous workshop to be carefully checked and cleaned. A condition report is provided and your jewellery is returned to you looking its best.

Our fees

£40 for the first item
£15 for subsequent items
plus 1% of the total value of the items

All prices are subject to VAT.
